

[Form 2 (to be reported to Committee on Countermeasures for Contaminated Water Treatment and to be disclosed to public)]

Technology Information	
Area	2 and 3 (Select the number from "Areas of Technologies Requested")
Title	Homa Powder to eliminate radioactivity
Submitted by	Stephan Lakshman Oesterreicher
<p>1. Overview of Technologies (features, specification, functions, owners, etc.)</p> <p>As Part of our Meditation Practices we are applying ancient fire rituals that are used to cleanse the environment from all kind of pathogens, including radioactive pollution. The remaining ash of these rituals has been scientifically proven to neutralize radioactivity.</p> <p>We are offering you to implement this technology by treating the polluted water with this substance in order to naturally decrease and neutralize the radioactive pollution.</p> <p>This might be a completely different technology then you are usually applying, yet, there are 3 major arguments that will convince you to try out this method:</p> <ol style="list-style-type: none"> 1. In this critical situation the only judgment for technologies is if it works. And this one works! 2. The decreasing and neutralizing effect on radioactivity has been scientifically proven 3. It is very cost efficient, doesn't require much technology, only skilled people like us 	
<p>2. Notes (Please provide following information if possible.)</p> <ul style="list-style-type: none"> - Technology readiness level (including cases of application, not limited to nuclear industry, time line for application) <p>ready now</p> <ul style="list-style-type: none"> - Challenges <p>You will need to approach this possibility with an open mind.</p> <p>There are no other challenges</p> <ul style="list-style-type: none"> - Others (referential information on patent if any)
