International Research Institute for Nuclear Decommissioning (IRID)

Event cancelled: IRID Symposium 2020

IRID annually holds the symposium to introduce research and development for the nuclear decommissioning of the Fukushima Daiichi Nuclear Power Station. However, given the growing concerns regarding the COVID-19 outbreak, we have decided to cancel the IRID Symposium 2020 for the safety and health of attendees and local communities.

In the meantime, thank you for your understanding. We look forward to seeing you in <https://blog.bizzabo.com/canceling-event-announcement-examples> near future.
